

## Watching our Broadcast on a Smart TV.

If you are a viewer trying to watch our broadcast on a smart TV, here are a few options.

### A. Using our Boxcast Software:

1. Our **BoxCast Software** allows you to setup an **Apple TV**, **Roku** or an **Amazon Fire TV** channel.
2. Start by downloading the **BoxCast APP** on your **Apple TV**, **Roku** or **Amazon Fire TV Stick**, and once the APP is downloaded, search for “Sullivan First Christian Church”. Usually just Searching for “Sullivan” gets you to our “Sullivan First Christian Church” channel.
3. Once you get to our Channel, just click on it and it will bring up our “Live” and “Pre-Recorded Services” that you can click on and watch our services.

### B. For best results across all brands of Smart TV:

1. You can connect a computer directly to the TV using an HDMI cable. This will mirror your computer display on the TV, and go to our [Sullivanfcc.org](http://Sullivanfcc.org) website.

C. Lastly, you can connect a computer, tablet, or smartphone over Wi-Fi using [Chromecast](#) or using [Apple Airplay](#) (assuming you have access to a Wi-Fi network that the Smart TV and your streaming device can connect to). Note: when streaming over Wi-Fi the quality of the video will be dependent on your device and Wi-Fi connection.
